▪ Consent for treatment / terms of acceptance

When a patient seeks chiropractic health care and we accept a patient for such care, it is essential for both to be working toward the same objective.

Chiropractic has only one goal: to eliminate misalignments within the spinal column that interfere with the expression of the body's innate wisdom. It is important that each patient understand both the objective and the method that will be used to attain our goal. Our chiropractic method of correction is specific adjustments of the spine. We do not offer to diagnose or treat any disease or condition other than vertebral subluxation. However, if during the course of chiropractic spinal examination we encounter non-chiropractic or unusual findings, we will advise you. If you desire advice, diagnosis, or treatment for those findings, we will recommend that you seek the services of a health care provider who specializes in that area. Our only practice objective is to eliminate major interference to the expression of the body's innate wisdom. Our only method is specific adjusting to correct vertebral subluxations.

I, the undersigned, a patient in this office, hereby authorize Lifepointe Chiropractic Center to administer treatment as necessary, if needed, within the lawful scope of chiropractic. I also certify that no guarantee or assurance has been made to the results that may be obtained. All questions regarding the doctor's objectives pertaining to my care in this office have been answered to my complete satisfaction. I have read and fully understand the above statements, and accept chiropractic care on this basis.

Consent for a minor (if applicable): *I, the undersigned, hereby authorize Lifepointe Chiropractic Center to administer treatment as necessary, if needed, within the lawful scope of Chiropractic to my child.*
